Mission Statement or Philosophy: We are a traditional, college prep school striving to prepare all of our students K4 - 12th grade for life after high school. Our goal is to enable them to apply and be accepted into the college of his or her choice. We accommodate learning in a regular classroom with help from a resource teacher provided by our school district and teacher accommodations.

School History: In 1965 several parents determined that there was a need for an alternative educational system other than the existing public school system. Classroom overcrowding and larger student-teacher ratios in local schools led these parents to believe that the education of many children would suffer because of a lack of individual attention in the school environment. Thus, in the spring of 1965 a group began to research private schools in South Carolina and Virginia. Because of the shortage of time before the 1965-66-school term, this group decided to wait until the following year to establish a private academy in Colleton County.
